DESARROLLADOR BACK END

project based on accounting software for mipymes. Creator of API REST for be used in the project.
Developer of all logic for de accounting boocks.
Link API REST: cristian-garzon/My-Financial-Book

PROFILE

2 years of experience in creating projects with java, six months creating REST API with spring boot framework, intermediate level in spring boot, intermediate level in microservice architecture with spring cloud in netflix eureka.

In my spare time I do competitive programming from codeforces in c ++.

Good in teamwork, good communication with teammates is necessary to be able to move forward with the project in question. In constant learning, I like to continue advancing my knowledge by doing various online courses such as udemy courses. One year of experience in different linux distributions.
